DERRICK - DURBANVILLE

Ek sukkel nou al 3 jaar met 'n seerplek wat elke somer terug kom op my perd se rug en volgens die lab toetse is dit 'n swam en bakterie wat van mekaar af voed. Ek het al die duurste produkte gebruik, maar dit was nie effektief nie tot ek 'PetNurse' ontdek het. Dit het die bakterie dood gehou en sodoende het die swam ook kleiner geraak en die hare weer terug gegroei.
